### NOTE AUX IMPORTATEURS

**Objet** : certificat vétérinaire pour l'importation d'aliments pour animaux familiers d'Australie

**Réf.** : arrêté n° 979 CM du 24 juillet 2015 modifié portant fixation de la liste des marchandises susceptibles de véhiculer des agents de maladies transmissibles des animaux et de la liste des denrées alimentaires et aliments pour animaux susceptibles de ne pas répondre aux conditions de sécurité sanitaire des aliments

**P. J.** : 6

Mesdames, Messieurs,

Je vous prie de trouver ci-joint le nouveau modèle de certificat vétérinaire pour l'importation d'aliments et articles à mastiquer pour animaux familiers et ingrédients d'aliments pour animaux familiers d'Australie, qui tient compte des dispositions de l'arrêté n° 979 CM du 24/07/15 modifié cité en référence.

Celui-ci a été décliné par l'autorité australienne sous ses formats électronique ou papier, selon le règne animal concerné (ingrédients issus d'animaux terrestres, aquatiques ou mixtes), et remplace tous les anciens modèles devenus obsolètes.

Pour rappel, ne sont dispensées de certificat vétérinaire que :

- les conserves destinées à l'alimentation des chiens et des chats ;
- les croquettes pour chiens et chats si elles sont accompagnées d'attestations du fabricant attestant qu'elles ont été soumises à un traitement thermique prévu par le code de l'OIE selon l'agent pathogène listé par le code de l'OIE, l'espèce et le statut sanitaire du pays, de la zone ou du compartiment d'origine concernés. Après traitement, elles ont été emballées et manipulées dans des conditions telles qu'elles n'ont pas pu être exposées à une source d'agent pathogène.

Je vous prie d'agréer, Mesdames, Messieurs, l'expression de mes salutations distinguées.

Pour le Ministre et par délégation

Hervé BICHET
